

# Reuseable Sign Post Breakaway Device

This easy-to-use 3-piece design allows you to mix-and-match any sign post types.

Another benefit is that you only have to replace components as necessary. The cups can be reused and replaced as needed and the centerpiece is just a fraction of the replacement cost of traditional 1-piece designs.

<b>BC2 Centerpiece Only</b>	<b>Installation Specifications:</b>
<b>Replacements - Centerpiece Only</b>	Best results when the contact surfaces between the centerpiece and cups are free of debris
<b>Part No:</b>	<b>Post Type</b>
BC2-CENTER	Works With All Combinations
More cost-effective replacement option than traditional 1-piece designs	

Centerpiece - Easily Replaceable Break Portion

## Useful Tip:

Keep some pre-assembled sets on hand when heading out to repair fallen sign posts. There's no need to re-assemble on-site.

Bring all of the used components back to your workshop to salvage, repair and re-assemble reusable parts in a more comfortable environment. Some threaded holes may need re-threading. Enjoy the savings!
